**Team Leader:** Courtney Olson

The main reason why we voted Courtney for team leader is because she has the most experience out of all of the group members. She already has acquired a B.S. degree for SMAD (School of Media Arts and Design) with a focus in web design and film. She has also had the most experience working in large groups as well as taking a central role in leadership. That's why we believe she is the best choice for our team leader.
